Riesling

Riesling is a white wine, originating in the Rhine region of Germany. Riesling is an aromatic grape variety displaying a powerful & distinctive flowery aroma. It is almost perfumed with apple, pear and stone fruit that frequently mix in mineral elements. Its high natural level of tartaric acid enables it to balance even high levels of residual sugar as well as high acidity. It is used to make dry, semi-sweet, sweet and sparkling wines.

Sauvignon Blanc/Semillon/Chenin Blanc

Sauvignon Blanc grape gets its name from the French word Sauvage ('wild') and Blanc ('white'). Sauvignon Blanc grapes produce a crisp, dry and refreshing style. Depending on the climate, the flavours range from aggressive to sweetly tropical. The flavours range from sour green fruits of apples, pears and gooseberries through to exotic tropical fruits of melon, passionfruit and pineapple.

Italian Varietals

The French call it Pinot Gris, the Italians call it Pinot Grigio, and it is a mutant clone of the Pinot Noir grape. The grape has a brownish pink to black and sometimes white appearance. Classic Pinot Gris characters include honey & fresh butter balanced by a touch of tinned pears, dried apples and hay with a slightly sweet finish. Pinot Grigio is often described as having smoky & salty mineral notes. It is often followed by pink grapefruit, melon & lemon & balanced by great acidity.

Chardonnay

Chardonnay is believed to have originated in Burgundy region of eastern France but is now grown in many other parts of the World. The Chardonnay grape itself is very neutral, with many of the flavours commonly associated with the grape being derived from such influences as terroir and oak. It is vinified in many different styles, from the elegant & flinty, to rich, buttery & tropical fruit flavours.

Pinot Noir

Pinot Noir is the name derived from the French words for "pine" and "black". This alludes to the varietals' clustered dark purple pine cone shaped bunches of fruit. A great Pinot Noir creates a lasting impression on the palate and in the memory. Its aroma is often one of the complexes of all varietals and can be intense. With ripe grape or black cherry aromas, frequently accented by pronounced spiciness that suggests cinnamon, saffron or mint. Ripe tomato, mushroom, and barnyard smells are common descriptors for identifying Pinot Noir. It is full bodied and rich but not heavy with substantial flavour despite its delicacy. The most appealing quality of Pinot Noir may be its soft, velvety texture. When right, it is like liquid silk, gently caressing the palate.

Rose

Made from the red varietals, the grapes are pressed and the juice sits with the skins for fermentation – but just for a little while – enough time to obtain a bit of colour and a bit of the skin characteristics. The fermentation continues as a white wine, most often in stainless steel. Rosé styles range from sweet or dry, dark or light in colour; aromas include violets, dried roses, wild flowers, strawberries, cherries, raspberries, apple, and lychee & pineapple.

Cabernet Sauvignon

Cabernet Sauvignon is one of the world's most widely recognized red grape varieties. In cool regions, the wine is herbaceous and show flavours of green peppers. In regions where the grape is exposed to excess warmth and over-ripening, there is a propensity for the wine to develop flavours of mint, eucalyptus and cooked or stewed blackcurrants. Cabernet Sauvignon with pronounce green pepper Flavours earned the nickname of "Monterey Veggies". In parts of Australia, the grape develops more mineral flavours. Resinous Eucalyptus flavours tend to appear in regions that are habitats for the eucalyptus tree.

Shiraz

Shiraz is the fifth most populated city in Iran and the capital of Fars Province. Shiraz is located in the south west of Iran on the Rudkhaneye Khoshk seasonal river. Shiraz is known as the city of poets, wine & flowers. Shiraz is grown in many countries and is primarily used to produce powerful red wines. Shiraz is opulent, powerful and seductive .It displays bold ripe fruit, a fleshy mid palate & soft tannins. Wines made from Shiraz are often quite powerful and full-bodied. The variety produces wines with a wide range of flavour notes, depending on the climate and soil where it is grown. Aroma characteristics can range from violets to berries (usually dark as opposed to red), chocolate, espresso and black pepper. With time in the bottle these "primary" notes are moderated and then supplemented with earthy or savoury notes such as leather and truffle.
